

Bold, Italics and Underlining

This is how **bold**, *italized* and underlined text looks. You can also combine them, like ***bold italicized***, **bold underlined** and *italicized underlined*. Finally, you can put ***everything together***.

在中文 Beamer 中默认是使用 setCJKsansfamily 定义的字体：normal 正常，*italized* 斜体，***bold italicized*** 粗斜体，**bold** 粗体。

还可以使用 setCJKfamily 定义中文字体：楷体，**隶书**，仿宋，**行书**等。
